

Data Scientist with experience (m/f/d)

Do you have experience or interest in blockchain and related technologies? Would you like to scientifically develop yourself in this field? Are you a data scientist with an interest in developing and implementing models?

We would like to expand our team for our application-oriented research projects with a

Data Scientist (m/f/d)

Who you are

- You have a Bachelor's or Master's degree in finance, computer science, business informatics or comparable education.
- You have experience working on data science projects.
- You have good knowledge and experience working with R or Python. Knowledge of other programming languages commonly used for data science is a plus.
- You know what test-driven development is and how to write code that can be used in production systems. You know your way around Gitlab, Docker and REST APIs are not new for you.
- You know how to handle large data sets and work with data bases.
- Experience with and enthusiasm for crypto assets and blockchain technology.
- Fluent in English (ideally also German)
- Ability to work in a team and good communication skills
- High degree of initiative and self-organisation

Your tasks would include

- You would work with us and our company partners on data science projects in the field of asset management and crypto-asset analytics.
- Development and testing of models in R or Python.
- Systematic planning and implementation of software tests
- Participate in technical discussions on architecture and code reviews.

We offer

- Attractive tasks in national and international projects with well-known companies
- Collaboration in an interdisciplinary team of researchers
- Attractive full-time employment (40h/week), part-time employment also possible

- Opportunity to write a doctoral thesis
- Continuous scientific exchange with leading scientists at ABC and our scientific partners
- Opportunity for independent and joint publication of research results in scientific journals
- Working in an international team
- Flexible working hours
- Workplace close to the underground (U1).

The minimum gross salary (full-time) with completed Master is € 3,528.00 per month (14 times per year), and with a completed PhD the minimum gross salary is € 4,265.00. Our final offer depends on your qualifications.

The Austrian Blockchain Center (ABC) is an application-oriented, nationally funded research centre. The mission of the Center is to be the Austrian one-stop-shop research centre for Blockchain (and related) technologies used in industrial applications such as Industry 4.0 / IoT as well as in finance, energy, logistics, government and administration applications. Together with our scientific partners, we provide services to a wide range of industries, from financial services to manufacturing.

Are you interested? Please send us your CV and a motivation letter to jobs@abc-research.at!
